

## Activating Products on HRW Platform ( <https://my.hrw.com> )

**Activate Class Products** enables you and your teachers to search for products and activate them so they are available to be used for classes. You can also assign products to classes.

### ***To Activate Class Products:***

- 1- Log into HRW platform
- 2- Click **Products** and select **Activate Class Products**.

The **Activate Class Products** page appears.

### **Activate Class Products**

Activate Holt McDougal Online products into your classes.

#### 1. Search for a product to activate:

Filter your search by subject:

- All Subjects
- Language Arts
- Mathematics
- World Languages
- Social Studies
- Science and Health
- Other

Filter your search using a product name or ISBN.

Product Name:  [Search an ISBN](#)

Search

### 1. **Filter the products**

You can filter the products from which to select for activation.

- a. Under **Filter your search by subject**, select subjects individually or click **Select All**. If you don't check any, all subjects will be searched.
- b. In the **Product Name** field, enter a product name to narrow down the selections. For example, you could enter "Biology."
- c. Click **Search**. The results are listed with parts **2** and **3** of the screen. In this example, "Biology" was entered in the **Product Name** field.

### 2. Available Products

Select one or more products to activate.

<input checked="" type="checkbox"/> Select All Products	Subject
<input type="checkbox"/> TX High School Science Biology	Science and Health

### 3. Activate Products to One or More Classes

To show the classes you want to activate the selected products to, filter the classes by school and/or filter by Class Names, Keywords, or Phrases.
